DH PUBLIC SECTOR CONSULTING LLC

Public Sector Data Integration Experts

We are a small, highly experienced team with over 30 years in custom software development and Public Sector Management Software. Our expertise includes Software Integrations, Legacy Software Migration, Community Development, Real Estate, Personal Property, Motor Vehicle Tax Collections, Utility Billing, Fees and Payments, and other Public Sector Applications.

Effortless Data Integration with Custom ETL Solutions

Simplify complex data transformations and migrations with our tailored ETL (Extract, Transform, Load) custom software integrations. Seamlessly integrate data from multiple sources, gaining value from existing data and automating data flow, redundancy, logging, and custom reporting between 3rd party applications.

Seamless Integration Across Diverse Enviornments

Navigate the complexities of mixed environments with ease. From on-prem to hybrid and cloud application landscapes, our expertise ensures smooth integration of Public Sector applications, maximizing efficiency and collaboration across your entire infrastructure.

Legacy Application Integration and Migration

Revitalize your public sector operations while preserving legacy systems. Normalize and unlock the potential of your existing data. Our experts specialize in the seamless integration and migration of legacy applications, ensuring uninterrupted operations, fault-tolerance, and harnessing cutting-edge tools.

Secure and Efficient Data Migrations

Safeguard the integrity of your data during migrations with our expert services. Whether you are consolidating databases, transitioning to a new platform, or implementing disaster recovery, we ensure secure and efficient data migrations and data replication tailored to your public sector organization's needs.
